2012 d(OCUMENTA)13 'Dedicated to artistic research and forms of imagination that explore comitment,matter,things,embodiment and active living in connection with yet not subordinated to theory.This terreins where politics are used probably form a sensuel

energetic and wordly alliance between current research in various scientific and artistic fields and other knowledges both ancient and contemporary documents (13), is driven by a holistic and non-logistic vision that is skeptical of the persisting belief in economic growth. The vision is shared with recognizing, the shapes and practices of knowing of all animate and inanimate makers of the worlds including people.
